

This section contains ten vertical dashed lines for tracing practice. Each line starts with a solid black dot at the top and ends with a solid black arrowhead pointing downwards. The lines are arranged in two rows of five. The top row has five stars above each line. The bottom row has four stars above the first four lines, and a rocket ship is positioned at the end of the fifth line. The rocket ship is a simple line drawing with a nose cone, a body with two windows, and a tail with two fins.
