

PIGGY BANK IT GAME

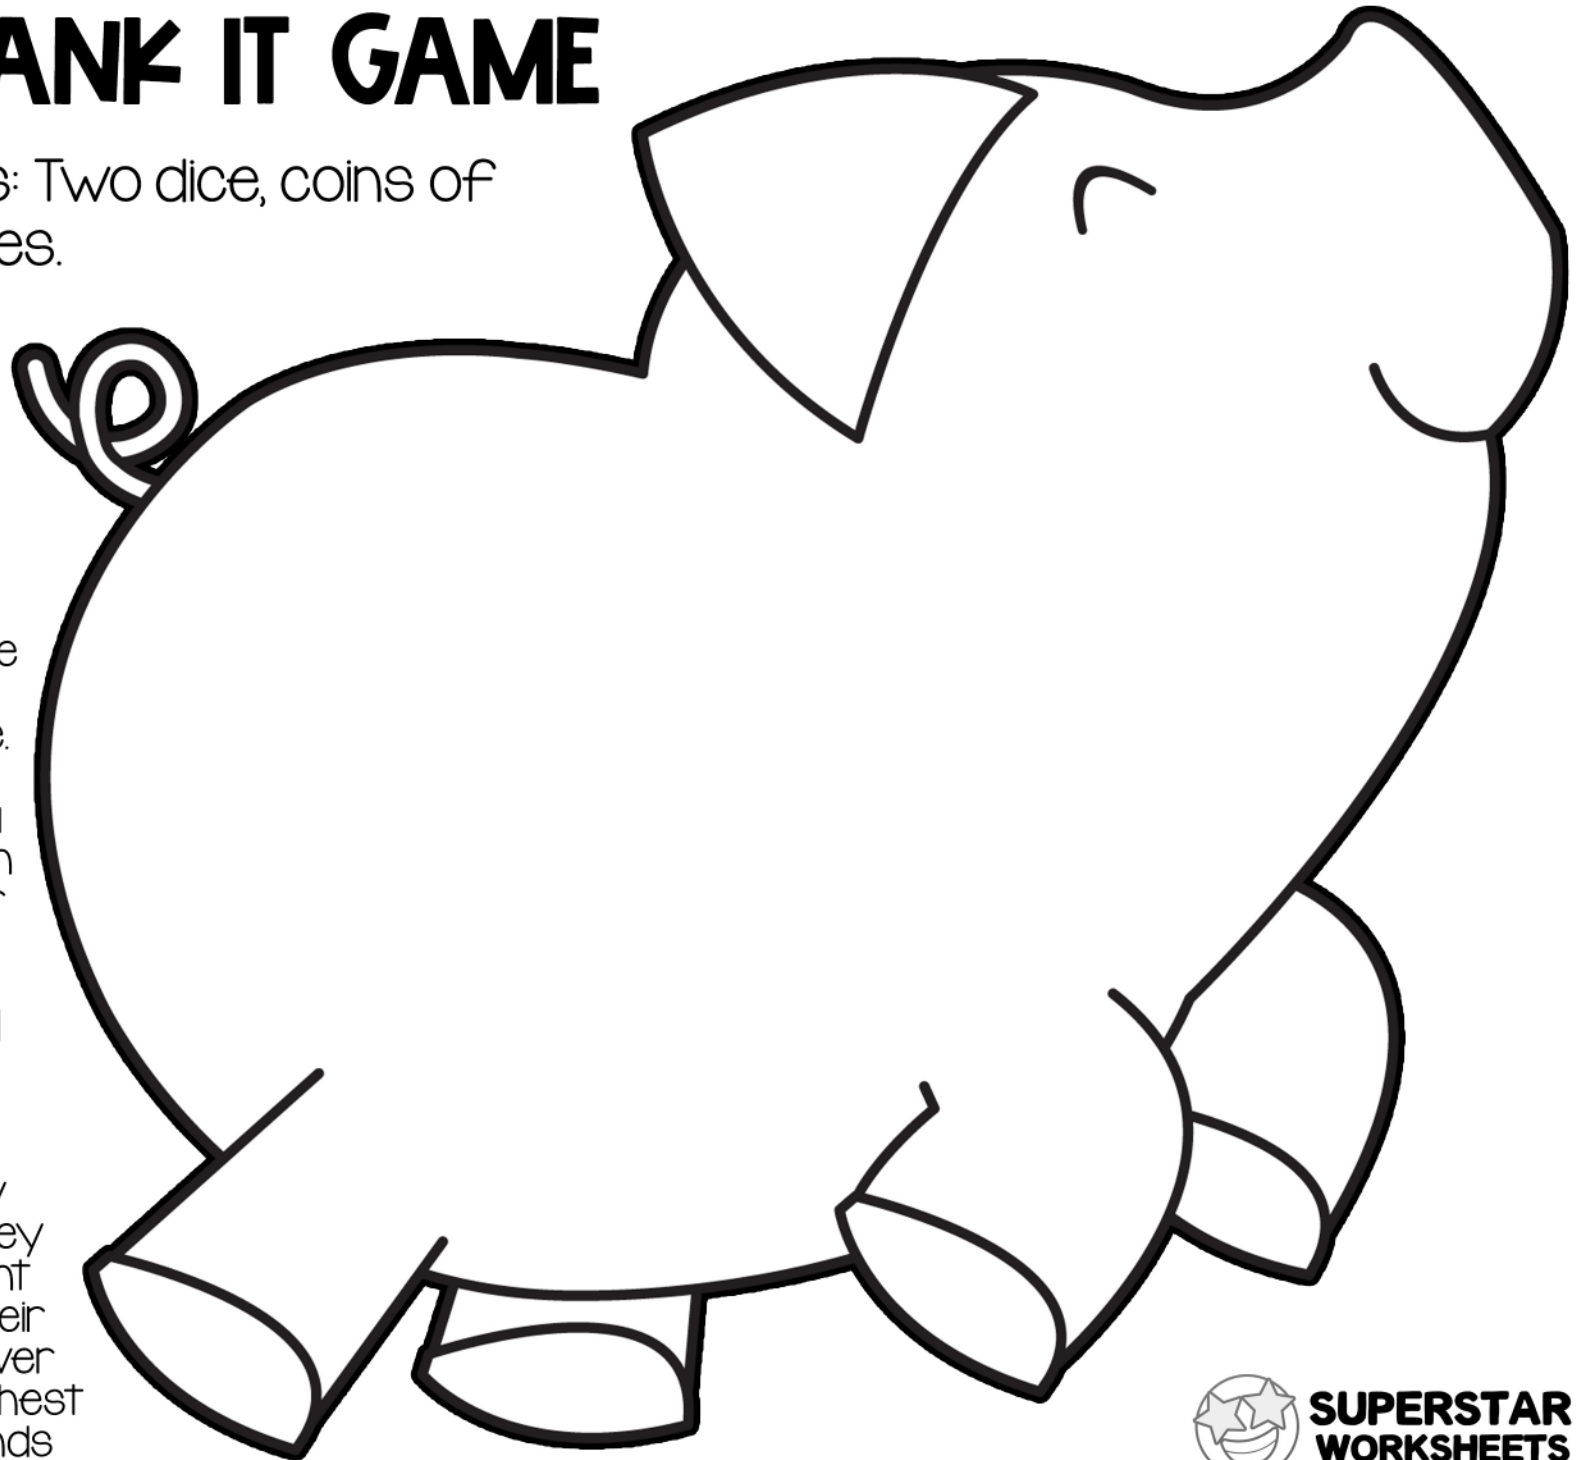

Materials: Two dice, coins of all values.

How to Play:

Players roll the dice and add that number of coins to the piggy bank.

Each number on the dice can be used with one coin value. If you roll a four and a six, then you must choose which coin you want four of and which coin you want six of. All coins are placed in the bank.

When a player rolls **DOUBLES** they get to take the money from the bank, count it up, and add it to their score. The round is over. The player with the highest score after ten rounds is the winner!
