

# Multiplication Card War

## 2 Players

## How to play:

1. Shuffle as many sets of the flashcards as you wish.
2. Pass out all the cards, face down, to the players.
3. Each player takes a turn to flip over one of their cards.
4. Players determine the product of flashcards. The one with the highest product collects the card.
5. Player with the most cards wins.

### Player 1

$$9 \times 9$$

**Product = 81**

**WINNER!!!!**

### Player 2

$$6 \times 3$$

**Product = 18**
