

CLAUDE MONET

Claude Monet was a French artist best known for his contribution to an art movement known as Impressionism. He focused on the way the light hit his subjects and usually painted the same subject multiple times to showcase the effect.

"When you go out to paint, try to forget what objects you have before you, a tree, a house, a field, or whatever. Merely think, here is a little square of blue, here an oblong of pink, here a streak of yellow." -Claude Monet
