SUPERSTAR WORKSHEETS

2-Digit Divisor with 5-Digit Dividend: No Remainders

Name

Instructions: Write out each division equation with 5 digits divided by 2 divisor and solve by finding the quotient with no remainder.

1. $15\overline{)38910}$

2. $12\overline{)67080}$

3. $11\overline{)56210}$

4. $14\overline{)90230}$

5. $11\overline{)98549}$

6. $17\overline{)45101}$

7. $19\overline{)42085}$

8. $16\overline{)56128}$

SUPERSTAR WORKSHEETS

2-Digit Divisor with 5-Digit Dividend: No Remainders

Name

Instructions: Write out each division equation with 5 digits divided by 2 divisor and solve by finding the quotient with no remainder.

1. $15\overline{)38910} = 2594$

2. $12\overline{)67080} = 5590$

3. $11\overline{)56210} = 5110$

4. $14\overline{)90230} = 6445$

5. $11\overline{)98549} = 8959$

6. $17\overline{)45101} = 2653$

7. $19\overline{)42085} = 2215$

8. $16\overline{)56128} = 3508$
