

ELAPSED TIME

WITH ANALOG CLOCKS

Elapsed time is the amount of time that passes between two events.

Jane left to hiking at 3:00.
She got out of the woods at 9:00.
How long was Jane hiking in the woods?

ELAPSED TIME :
6 hours 00 minutes

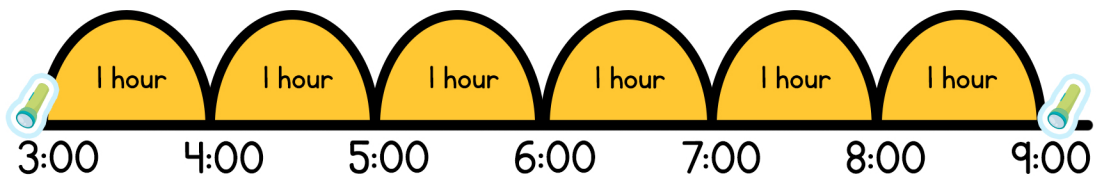

T-Chart

time	hours and minutes
3:00	start +
4:00	1 hour
5:00	1 hour
6:00	1 hour
7:00	1 hour
8:00	1 hour
9:00	1 hour

add these together =
elapsed time
