

Ingredients:

Vanilla cake mix
Chocolate cake mix
Peanut butter chips
Red, orange, and green food coloring
Blue and green candies
Oreo cookies

Directions:

Prepare the Cake Layers:

Prepare the vanilla and chocolate cake mixes according to the instructions on the packages. Allow them to cool completely after baking.

Coloring the Layers:

Divide the vanilla cake into three equal parts.

Add red food coloring to one part, orange to another, and green to the third part. Mix each color thoroughly until you achieve the desired shades. Mix the shredded coconut with a little bit of blue food coloring.

Creating the Layers:

Start by placing a layer of chocolate cake at the bottom of a clear serving dish to represent the Earth's core. Over the chocolate layer, place the red-colored vanilla cake for the inner core. Follow it with the orange-colored vanilla cake for the outer core.

Add the green-colored vanilla cake on top to represent the mantle. Mixed in some crushed up chocolate cookies to represent rocks in the mantle

Crust and Surface:

Add blue and green candies on top to represent the Earth's crust.
