

The United States of America flag is a powerful symbol of freedom and unity. It is often called the "Stars and Stripes" because of its design, which includes 50 stars and 13 stripes. Each star represents one of the 50 states in the country, while the stripes represent the original 13 colonies that declared independence from Great Britain in 1776.

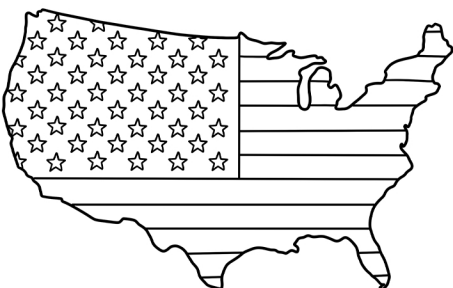

The flag's colors are also meaningful. Red symbolizes bravery and valor, white represents purity and innocence, and blue stands for vigilance, perseverance, and justice. When you see the American flag flying, it is a reminder of the country's history and the values that Americans hold dear.

The flag's design has changed several times since it was first created. The first official flag, known as the "Betsy Ross flag," had 13 stars arranged in a circle, symbolizing unity among the original colonies. As new states joined the Union, additional stars were added. The current design with 50 stars was adopted on July 4, 1960, after Hawaii became the 50th state.

The American flag is displayed in many places, such as schools, government buildings, and homes. It is often flown on national holidays like Independence Day, Memorial Day, and Veterans Day. During these times, people might also recite the Pledge of Allegiance, a promise of loyalty to the flag and the nation it represents.

The flag is more than just a piece of fabric; it symbolizes the American spirit. It has been carried into battle, flown on the moon, and waved at countless parades and events. It serves as a reminder of the sacrifices made by those who have fought to protect the freedoms Americans enjoy today.

For many people, the flag inspires feelings of pride and patriotism. When they see it waving in the wind, they think of the country's achievements and the ongoing efforts to build a better future for all. The flag unites people from different backgrounds and cultures, reminding them that they are all part of one nation.

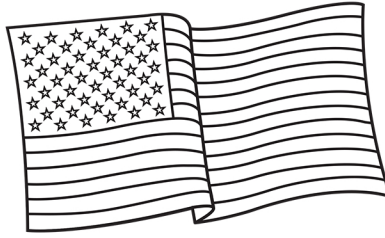

In schools, students learn about the history and significance of the American flag as part of their social studies lessons. They might even have the chance to create their own flags or participate in flag-raising ceremonies. Understanding the stories behind the flag helps young people appreciate the values it stands for and the importance of being active and responsible citizens.

Circle the correct answer.

1. What do the 50 stars on the American flag represent?

- a. The original 13 colonies
- b. The 50 states
- c. The number of presidents
- d. The branches of the military
