

Choose a color for each type of fact below. Read the passage and highlight key facts as you go.

apples

both

oranges

Apples and oranges are both yummy fruits. They are round and grow on trees. You can eat both apples and oranges as a snack. These fruits are good for you and have vitamins.

Apples are often red or green, but oranges are always orange. Apples have smooth skin, while oranges have bumpy skin. When you bite an apple, it is crunchy, but oranges are soft and juicy. Apples have seeds inside, but oranges have sections that contain tiny seeds.
