summer

both

winter

Summer and winter are two different seasons. Both summer and winter last for three months each year. In both seasons, people like to play outside and have fun. Summer and winter both have special holidays. Summer is very hot, but winter is very cold. In summer, the days are long and sunny, while in winter, the days are short and often cloudy. Trees have green leaves in summer, but in winter, many trees lose their leaves. You wear light clothes like shorts in summer, but in winter, you need warm coats and boots.
