

Tigers vs. Lions

Name: _____

Date: _____

Choose a color for each type of fact below. Read the passage and highlight key facts as you go.

**tigers****both****lions**

Tigers and lions are both big cats. They are strong animals that eat meat. Tigers and lions both have sharp teeth and claws. These cats can run very fast to catch food. Tigers have orange fur with black stripes, but lions have tan fur.

Tigers usually live alone, while lions live in groups called prides. Lions have big manes around their necks, but tigers do not. Tigers like to swim in water, while lions prefer to stay dry on land.
