Missing Addends

Name:

Date:
Find the missing addend by first making ten, then add remaining number to complete the problem.

$4 + \underline{6} + \underline{} = 13$

$\underline{} + \underline{} + 5 = 13$

$\underline{} + \underline{} + 6 = 13$

$4 + \underline{} + \underline{} = 16$

$5 + \underline{} + \underline{} = 12$

$\underline{} + 7 + \underline{} = 19$

$\underline{} + 4 + \underline{} = 10$

$\underline{} + \underline{} + 3 = 10$

$\underline{} + \underline{} + 7 = 16$

$6 + \underline{} + \underline{} = 15$

$9 + \underline{} + \underline{} = 18$

$\underline{} + 8 + \underline{} = 17$

$\underline{} + 6 + \underline{} = 20$

$\underline{} + \underline{} + 9 = 20$

$\underline{} + \underline{} + 8 = 14$

$3 + \underline{} + \underline{} = 11$

$2 + \underline{} + \underline{} = 9$

$\underline{} + 2 + \underline{} = 14$

$\underline{} + 5 + \underline{} = 12$

$7 + \underline{} + \underline{} = 15$

$7 + \underline{} + \underline{} = 15$
