

DIVISION

Addition means putting numbers together to make a bigger number.

divide

each

split

per

shared equally quotient

$$\begin{array}{c} 12 \\ \star \star \star \star \\ \star \star \star \star \\ \star \star \star \star \end{array} \div \begin{array}{c} 3 \\ \star \star \star \end{array} = 4$$

12 divided by 3 equals 4

12 over 3 equals 4

Helpful Tip:

Addition makes numbers grow!
