

PARTS OF A MUSHROOM VOCABULARY CARDS

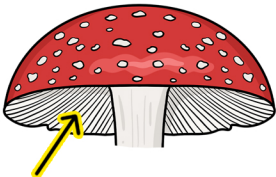

cap

The rounded top part of a mushroom that sits above the ground.

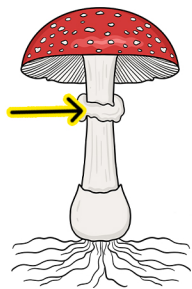

stem

The stalk that holds the cap up and lets it stand tall.

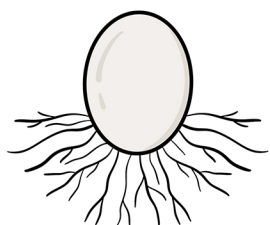

gills

The thin, papery lines under the cap where tiny reproductive dust is made.

ring

A small ring of tissue partway down some mushrooms, left over from a covering that once protected the young mushroom.

mycelium

A web of thread-like strands that grows underground and feeds the mushroom.
