

PROTECTING SEA TURTLES

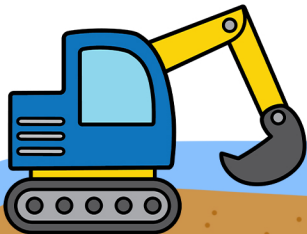

Threats

PLASTIC POLLUTION

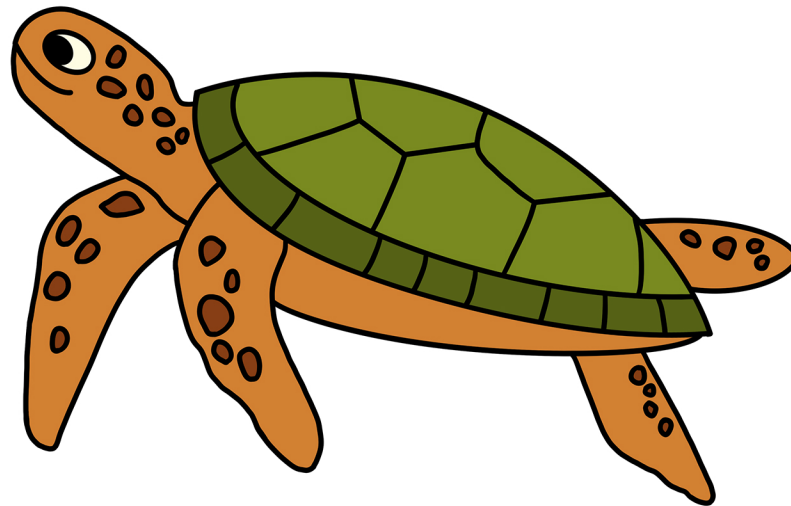

Plastic trash that ends up in the ocean and can hurt sea animals.

HABITAT LOSS

When the natural place an animal lives is damaged or taken away.

How We Help

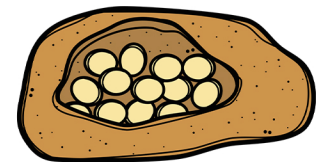

CONSERVATION

The work people do to protect animals, plants, and the places they live.

NESTING BEACH PROTECTION

Special care people take to keep nesting beaches safe so sea turtles can lay their eggs.

ENDANGERED SPECIES PROGRAMS

Creating and running programs for at-risk animals to keep them from disappearing forever.
