

# ADULT SEA TURTLE MIGRATION

Sea turtles can sense Earth's magnetic field, like an internal compass, to help find their way.

**Feeding Grounds**  
where a sea turtle  
eats and grows

**Return to Sea**  
sea turtle swims back  
to feeding grounds

**Migration**  
long swim  
across the ocean

**Nesting Beach**  
where the female  
returns to lay eggs
