

HUMAN BRAIN

CROSSWORD PUZZLE

Across

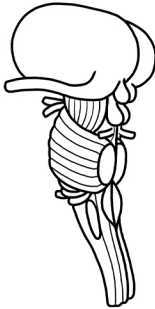

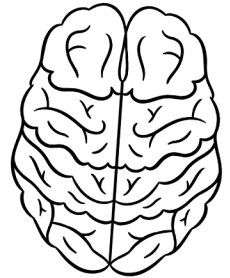

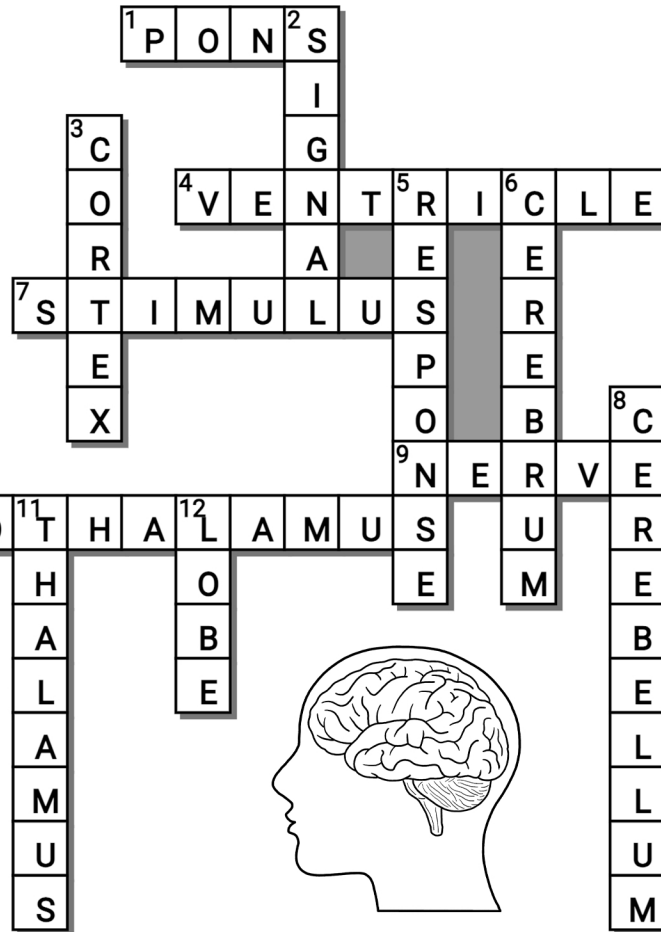

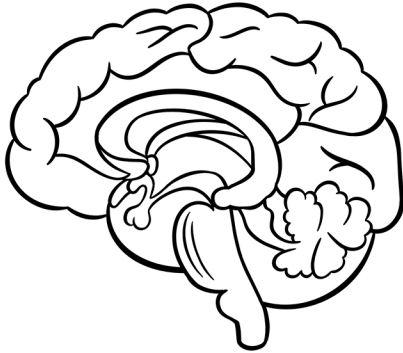

1. Part of the brain stem that relays messages between the brain and the rest of the body
4. A fluid-filled space inside the brain that produces cerebrospinal fluid
7. Anything in the environment that causes the body to react
9. A bundle of fibers that carries messages between the brain and the body
10. This structure helps control body temperature and hunger

Down

2. The information sent along nerves to and from the brain
3. The outer, wrinkled layer of the cerebrum
5. The body's reaction to a message from the brain
6. The largest part of the brain that controls thinking, learning, and voluntary movement
8. This part of the brain controls balance and coordination
11. This structure relays sensory information to the right part of the brain
12. A section of the cerebrum, like the frontal or temporal one
