

HUMAN EYE CROSSWORD PUZZLE

Across

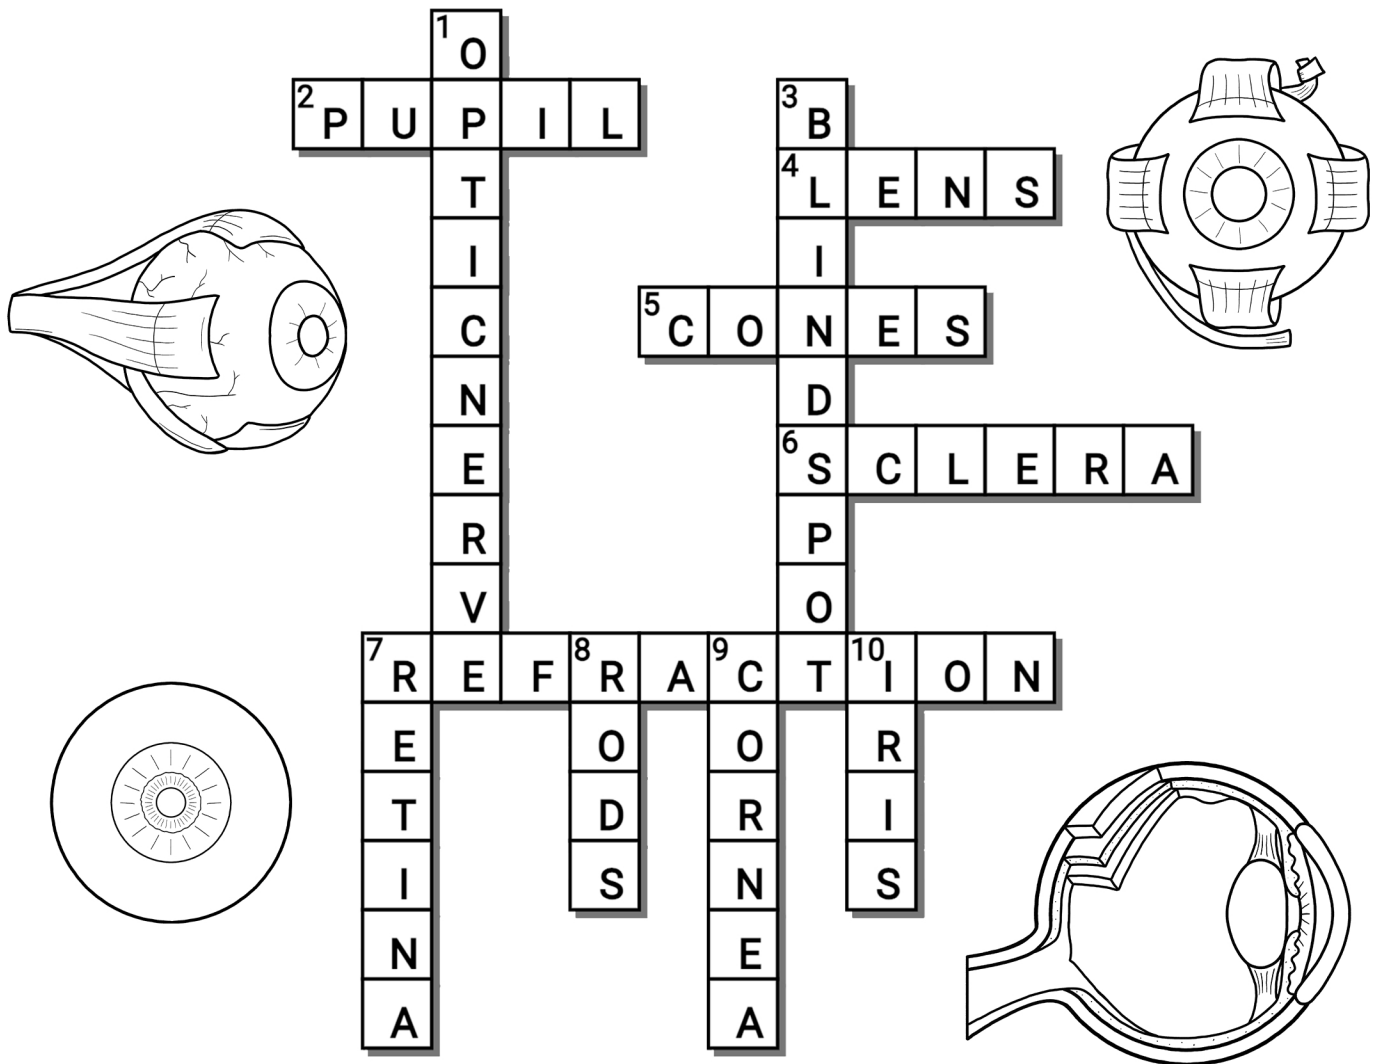

2. The dark opening that lets light into the eye
4. The clear structure that focuses light onto the retina
5. Retina cells that detect color and detail
6. The tough white outer layer of the eye
7. The bending of light as it passes into a new material

Down

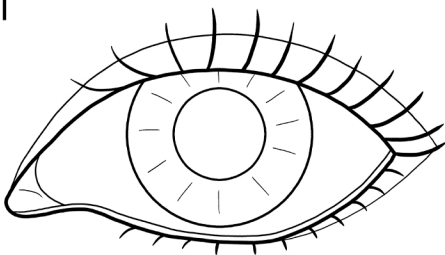

1. Carries visual signals from the retina to the brain
3. The point where the optic nerve connects, with no light-sensing cells
7. The layer at the back of the eye that senses light
8. Retina cells that detect brightness in dim light
9. The clear front surface that bends light as it enters
10. The colored part of the eye that controls pupil size
