A CLOSER LOOK AT

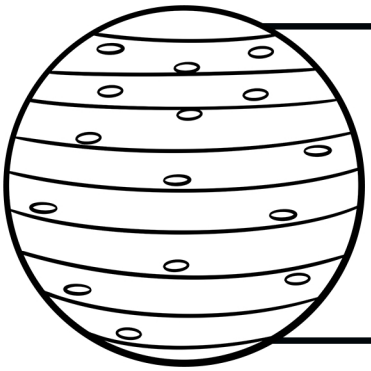

MUSCLE TYPES

MUSCLE TYPES ARE:

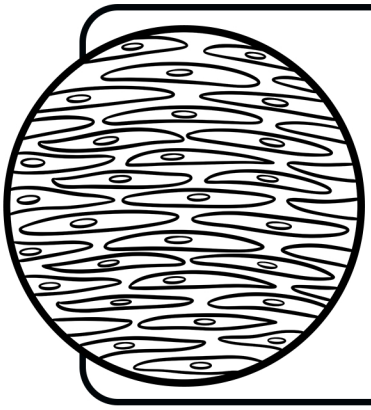

- Cardiac Muscle
- Smooth Muscle
- Skeletal Muscle

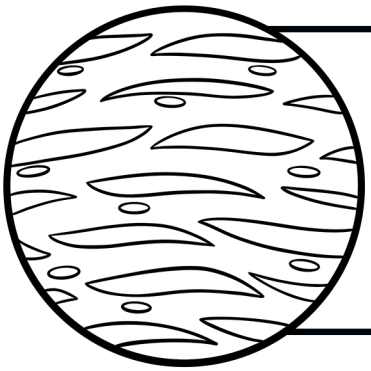

SKELETAL MUSCLE

Long, striated fibers attached to bones by tendons. It is voluntary, so you control it when you walk, write, or kick a ball.

SMOOTH MUSCLE

Short, spindle-shaped cells with no stripes, found in the walls of the stomach, intestines, and blood vessels. It is involuntary and moves food and fluids.

CARDIAC MUSCLE

Striated, branching fibers found only in the heart. It is involuntary and contracts with every heartbeat to pump blood.
